REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the present invention relates to a programmable logic device having a dual-port memory used as CAM. The independent claims 1, 4, 7, 14, 22 and 25 recite a method and an apparatus for reading/writing from/to a memory having an address conforming logic block configured to receive a first number of address bits, block a second number of address bits, and pass a third number of address bits, an address decoder coupled to the address conforming logic block configured to decode the third number of address bits and provide a fourth number of column select signal. The PRIOR ART fails to disclose or suggest such a method of an apparatus as described in the independent claims 1, 4, 7, 14, 22 and 25, therefore, claims 1-27 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vu A. Le whose telephone number is (571)272-1871. The examiner can normally be reached on M-F (7:00-3:30).
